

# FLYtrap SNAP!

Can you SNAP as fast as a hungry meat-eating plant?

## Let's get snapping!

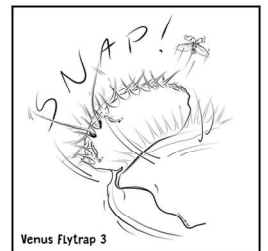

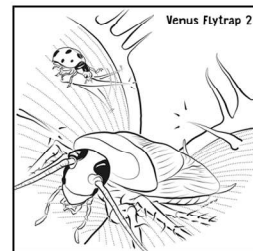

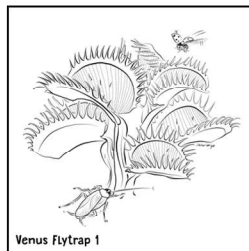

Watch the Venus Flytrap video at <https://youtu.be/YtWVrwTT5IA>

Print two copies of the SNAP cards and cut them out

PLAY: Each player quickly turns over the top card from their face-down pile. When someone turns over a card that matches the other player's, they race to say SNAP!

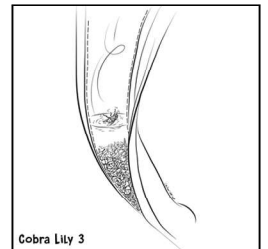

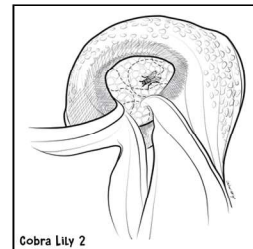

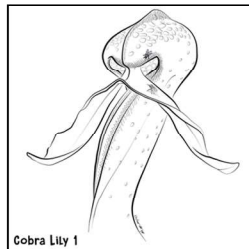

### Snap Traps

Venus Flytraps use electricity and hydraulics to prepare and launch their swift attack.

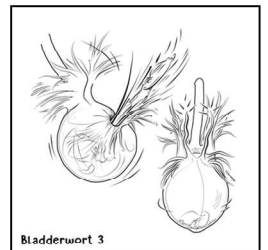

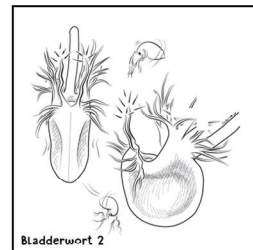

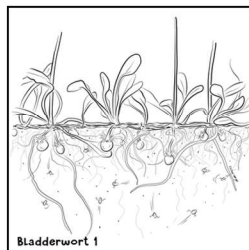

### Light Traps

Once inside the Cobra Lily, escape is impossible. The exhausted victim falls to its death.

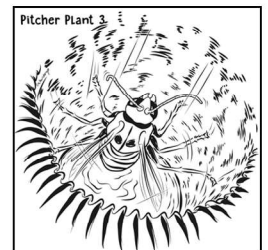

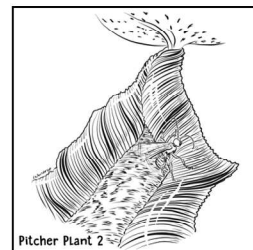

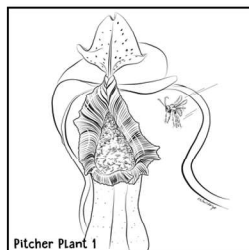

### Vaccum Traps

Bladderworts are Earth's fastest-moving carnivorous plants, devouring tiny water-creatures.

### Pitfall Traps

Cunning Pitcher Plants lure insects by mimicking flowers. Then it's a one-way trip to doom!

### Sticky Traps

Sundews have an unfair advantage! Mucilage, their mysterious super-glue, is strong and deadly.
